COPE/PAC

Next November is a critical election, one that will define this profession forever!

We need to raise 16 thousand dollars as a local. We can accomplish this goal if we teachers donate the equivalent of \$1 per week and paraprofessionals donate the equivalent of \$.50 per week. In the past most of us donated 30 dollars through a payroll deduction, however, we are by law not allowed to collect money this way anymore.

I believe this is a financial goal that we can and must attain. If you like all the changes made by the government such as decreasing tenure, paying 3 percent of your salary toward retirement, or not having a choice in where you teach, do nothing but do not complain when you have no rights. If the Republicans win another term in the House, we will continue to see decreased revenue and continued pay cuts. We can no longer sit back and let others do the work. We need to win seats in the House! We need to stop that attack on educators and unions! We need to support judges that support us!

In the next few weeks someone will come and ask you to donate. Please listen with an open mind and an open wallet
